RUMORED BATTLE.

It is Said That Adm. Makaroff's Fleet Attacked a Japanese Squadron at Port Arthur.

NOTHING IS OFFICIALLY KNOWN.

It is Believed That the Japs Are Covering Arrangements For a New Landing of Troops.

Everything Shows That on Account of Unpreparedness on Land Russia Has Decided to Operate on the Defensive.

Paris, April 9.—The St. Petersburg correspondent of the Echo de Paris says that Adm. Makaroff went out from Port Arthur Friday morning, a Japanese squadron having been signalled as in the offing. It is rumored, the correspondent says, that a sea fight took place but nothing concerning it is officially known.

Port Arthur, April 9.—A correspondent of the Times at Wei Hai Wei, calling under Friday's date, says:

"The result of a week's cruise leads me to believe that the Japanese fleet is engaged in covering arrangements for a new landing of troops recently mobilized. A close blockade of Port Arthur is not maintained, presumably because of information regarding the state of the channel. Certainly up to the present no Japanese transports have entered the Gulf of Pe Chi Li."

St. Petersburg, April 9.—The Vostochny-Vestnik's Harbin correspondent says everything shows that on account of unpreparedness it has been decided to operate on the defensive. It is believed that the Japanese will never pass Mukden.

In anticipation of the cutting of the railroad, the correspondent says, families south of Mukden have been ordered north. He adds that the regular railroad guard has been supplemented by volunteers armed by the government and drilled by instructors. Troops travel 30 miles an hour going to Liao Yang, according to the correspondent.

St. Petersburg, April 9.—Regarding the czar's declaration to accept village contributions toward the war, the Novosti says that authoritative communication is thus given the fact that Russia has sufficient financial strength to carry on an expensive war which threatens to last for a long time. The paper adds that this is another evidence of the faith which the czar has in the patriotism of his subjects, and that it is a proof of his wish for their welfare.

THE BOER SOLDIERS.

They Arrive At St. Louis to Participate in the World's Fair.

St. Louis, April 9.—Gen. Cronje and Commandant Van Dam, of Boer war fame, accompanied by 450 Boer soldiers, arrived here Friday to participate in the World's fair. After the fair is over they will go to Mexico to live. Gen. Viljen, who has been in St. Louis for some time, met the party at Norfolk, Va., and escorted it to St. Louis. The soldiers comprise one infantry company, one cavalry company and one artillery company, and will exemplify Boer methods of fighting.

SHOOTING DURING A BALL GAME.

Coley Hayden Wounded By Lee Anderson, State College Student.

Lexington, Ky., April 9.—Coley Hayden, a 19-year-old town boy, was shot at the State college baseball park Friday afternoon by Lee Anderson, a State college student, who was acting as guard at the park. The bullet entered Hayden's left shoulder and inflicted a serious wound.

Police Capt. Brown and Detective Savage went to the park to arrest Anderson. Knowing the reputation of the student body of the State college they intended to make the arrest as unostentatious as possible and, save those who wore citizens' clothes, went into the park alone. As soon as Anderson learned his mission he pulled his revolver and declared that he would not submit to arrest. A crowd of 200 State college students backed him up in his refusal. Capt. Brown rushed in before he could shoot, however, and after a tussle disarmed him. He was placed under arrest and the students made no further attempt to capture him from the police. He was later released on bond. The Central university and State college were engaged in a game and Hayden was looking on through a crack in the fence. Anderson ordered him away and he cursed Anderson. The student guard thereupon shot him without further words.

Anderson attempted to shoot a fellow student by the name of Bradford at a football game two years ago with even less provocation. Bradford had edged his way too far to the front and Anderson, acting as guard, cursed him and he retorted with a sharp remark. Anderson knocked him senseless with a club and started to shoot him. A student by the name of Menfee grabbed the pistol and the hammer went through Menfee's thumb. The pistol was at the time pointing directly to the stomach of Dr. Pryor, professor at the college. Anderson is a powerful man, 25 years old and came from Nicholas county. The game Friday resulted 6 to 2 in favor of State college.

Lexington, Ky., April 9.—A piece of vandalism extending over practically the entire business district of the city was discovered by the police Friday night when 50 plate glass windows, worth approximately \$4,300, were found to be disfigured by scratches made apparently by a diamond. A clean sweep was made in the business district. Some of the plate glasses were cut so deep that they will have to be replaced. No clew.

THE SHIPPING BILL.

Merchandise and Passengers For the Philippines Must Be Carried by American Vessels.

THE MEASURE PASSES THE HOUSE

The Conference Report of the Indian Appropriation Bill Was Submitted to the Senate.

The Measure As Reported Carries \$9,247,930—A Number of Amendments Agreed To—Lewis and Clark Centennial Exposition.

Washington, April 9.—The conference report of the Indian appropriation bill was submitted in the senate Friday. The bill as passed by the senate carried an increase of \$2,877,503 over the bill as passed by the house. Of this increase the house conferees agreed to \$1,605,738 and the senate receded from \$1,272,777. The bill as reported from conference carries \$9,247,930.

Among the senate amendments agreed to are the following: Ratification of the treaties with the Turtle Mountain Chippewas; providing for an Indian exhibit at the St. Louis exposition; authorizing the sale of coal and asphalt lands in Indian territory; providing for probate courts in Indian territory; provisions with reference to various claims, including those of J. Hale Sypher and the late William L. Springer.

The Quay amendment directing the secretary of the treasury to ascertain the difference in the value of currency paid to the Delaware Indians is changed by authorizing the payment of \$150,000 in full for all claims.

Several amendments stricken out of the house bill regarding the payment of claims were restored in conference. The house amendment extending the time for opening lands on the Utah reservation, Utah, is restored and fixed for March 10, 1905.

Washington, April 9.—Senate—The contracts for cancelling machines used by the post office department was debated at length in the senate Friday in connection with the post office appropriation bill. Mr. Culberson introduced an amendment reducing the rental of the machines, and the democratic senators charged that the rental now paid was the same as paid under the contracts made by George W. Beavers when he was chief of the salary and allowance division of the post office department and that they were excessive. Mr. Lodge denied the charge saying that there was no proof of its truth. The first hours of the session were devoted to a discussion by Mr. Patterson of the Chinese question in which he maintained that the exclusion laws would be ineffective after December 7 unless there was additional legislation.

House—The house passed a large number of bills, including the Philippine shipping bill and the bill for appropriating \$475,000 in aid of the Lewis and Clark centennial exposition to be held in Portland, Ore., in 1905. The only amendment made to the Philippine shipping bill was one extending until July 1, 1906, the time when the law shall become operative. The bill provides that no merchandise or passengers, except supplies for the army or navy, shall be transported by sea, under penalty of forfeiture, between ports of the United States and the Philippine archipelago, directly or via a foreign port, or for any part of the voyage in any except vessels of the United States. It does not prohibit, however, the sailing of any foreign vessel between the United States and the Philippines, nor between ports or places in the Philippines. The Philippine commission is authorized to issue licenses to engage in lighterage or other exclusively harbor business to vessels or other craft actually engaged in such business at the date stated and to vessels or other craft built in the Philippines or in the United States and owned by citizens of the United States or inhabitants of the Philippines. The law does not impair or affect any privilege guaranteed to Spanish ships and merchandise by the Paris treaty of peace.

IN FAVOR OF THE RAILROAD.

The Inter-State Commerce Commission Renders a Decision.

Washington, April 9.—The interstate commerce commission Friday announced its decision in favor of the railroad in the case of the railroad commission of Kentucky against the Louisville & Nashville railroad. The commission holds that the railroad in carrying out an exclusive contract with the Bourbon Stock Yards Co. is not violating the interstate commerce law, and that that law does not authorize the commission to make an order affirmatively requiring a railroad carrier to deliver carloads of interstate freight to a connecting carrier. The commission says it is not unlawful discrimination between commodities for the defendant to deliver carloads of dead freight to the Southern railroad for consignees in Louisville and to refuse to deliver live stock to the Southern railroad at Louisville when consigned to the Central stock yards. The commission points out that its jurisdiction does not extend to enforcing provisions in the constitution of the state of Kentucky.

STRIKE MADE GENERAL.

Headed By a Brass Band Strikers Marched to the Different Plants.

Latrobe, Pa., April 9.—Headed by a brass band, striking miners of Loyal Manna Coal and Coke Co. marched to the various plants about Latrobe Friday and succeeded in making general the strike begun on Monday. It is estimated that 3,500 men are out Friday night and operations at most of the plants have been stopped pending a settlement of differences. All but three of the mines of the Saxman interests are idle and the working forces of the Loyal Manna Coal and Coke Co., the Latrobe Coal and Coke Co. and the Bessemer Coke Co. have been seriously crippled. So aggressive have the strikers become in their efforts to induce men to quit work that Sheriff John H. Trescher was Friday appealed to. He left Greensburg Friday night with 40 deputies, who will be distributed about Latrobe and Bradenville.

EARLY MORNING FIRE.

Four Children Were Burned to Death at Sebastopol, Pa.

Wilkesbarre, Pa., April 9.—Four children of Mr. and Mrs. William Burke were burned to death at Sebastopol Saturday morning. The victims are Helen, aged 14; James, aged 12; Mary, aged 8; Michael, aged 6.

The family retired at the usual hour Friday night and about 1 o'clock Saturday morning Mrs. Burke was awakened by the crackling of flames. She awakened her husband and it was discovered that a wall of fire separated them from the two rear rooms occupied by the children. The parents made an attempt to reach the children but failed, and they were forced to jump from the second story window to escape death. The Pittston fire department responded but the building could not be saved.

CARLOAD OF FURNITURE BURNS.

Presumably It Caught Fire From a "Hot Box."

Lexington, Ky., April 9.—A fast freight train between Chattanooga and Cincinnati was stopped two miles south of Lexington just before midnight to allow a carload of furniture to burn up. The car presumably caught fire from a "hot box," and made the blaze plainly seen in Lexington. The train stopped on a 40-foot embankment and the Lexington fire department was summoned, but too late. No water was in the locomotive, as trains water at the local depot. The car was detached from the rest of the train and allowed to burn.

TRAIN SERVICE CRIPPLED.

Heaviest Snow Storm of the Season in South Dakota.

Sioux Falls, S. D., April 9.—The heaviest snow of the season prevails in the northern and central parts of the state. It is feared there will be much loss of cattle on the ranges. St. Joseph, Mo., April 9.—A blizzard has been raging here since early Thursday morning. Snow and sleet have seriously interrupted telegraph and telephone service.

TROUBLES SETTLED.

Possible Causes of a Conflict Between France and Great Britain Removed.

THE COLONIAL TREATY SIGNED.

British Government Recognizes the Right of France to Guard the Tranquillity in Morocco.

The French Will Not Impede the Action of Great Britain in Egypt—The Neutrality of the Canal to Be Maintained.

London, April 9.—The Anglo-French colonial treaty was signed in the foreign office in London Friday. It comprises three separate instruments. The first instrument deals with Egypt and Morocco, the second with New Foundland and West Africa and the third with Siam, the New Hebrides and Madagascar.

By the terms of the treaty the present political situation in Morocco and in Egypt remains unchanged, and a full agreement is reported regarding Egyptian finances. Great Britain recognizes the right of France to guard the tranquillity of Morocco, while France will not impede the action of Great Britain in Egypt; and Great Britain adheres to the convention of 1883 for the neutrality of the Suez canal.

It is agreed that public works and other undertakings in Egypt and Morocco shall remain in the hands of the respective states.

In order to assure the freedom of the Straits of Gibraltar it is agreed that no fortification can be erected on the Moroccan coast between Melilla and the mouth of the Sebu river. The two governments promise mutual assistance for the execution of these arrangements.

In New Foundland France foregoes exclusive fishing rights on the French shore, though retaining her rights to fish. The Bait bill of 1886 is modified so as to give New Foundlanders the right to sell bait to French fishermen. Indemnities on the French shore in exchange for the abandonment of the fishing rights. France obtains three concessions regarding territory in West Africa.

The government has long been a stranger to such a chorus of universal approval and congratulation as that exhibited editorially Saturday morning in all the London newspapers because of the happy conclusion of the Anglo-French negotiations for a colonial treaty. This approval is none the less wholehearted because it is recognized that France has obtained substantial concessions while surrendering little of real value.

The Daily Telegraph says: "It is most satisfactory to welcome a diplomatic incident which will be recorded for centuries. It is no exaggeration to assert that every barrier in the way of lasting peace and amity between France and Great Britain has been removed and if either party has made infinitely greater sacrifices they would have been cheap, indeed, in view of the incalculable value of the accord obtained."

Paris, April 9.—Although the Anglo-French entente does not appear to provoke enthusiasm, the general tone of the press, even of newspapers hostile to the government, is distinctly favorable, the editorials for the most part expressing belief that the possible causes of the conflict between France and Great Britain have been removed the making of undue sacrifices on the part of France.

Ex-Congressman Sentenced.

Cripple Creek, Col., April 9.—District Judge Lewis has sentenced John M. Glover, a former congressman from Missouri, to pay a fine for assaulting Sergt. Dittmeyer, of the Colorado national guard. New rural free delivery routes have been ordered established in different counties of the Ninth district, but the additional routes for Mason County are still held up to gratify the wishes and whims of disappointed Republicans. The people living along the proposed routes will likely have something to say about the matter when the November election comes round, and it will not be very pleasant for the Republicans. This matter ought to have been settled long ago.

Williams For Chairman National Convention.

[Washington City Special.]

A suggestion by Representative Kehoe of the Ninth Kentucky district, Thursday, that Representative John Sharp Williams of Mississippi the Democratic floor leader of the House be made the Temporary Chairman of the National Democratic convention at St. Louis was enthusiastically received by Democratic members on the House and Senate side. No objection was made to Mr. Williams from any quarter, and the boom for his selection by the convention for this important position seems well launched.

A well-known lady of the county had a valuable set of furs stolen last week at Cincinnati. She had gone into a candy shop on Fifth street and while there laid the bundle of furs, which she was expecting to have renovated, aside while she made a purchase, and upon looking for them found some sneak thief had gotten in his work. She used every endeavor to recover them, but was compelled to return home minus her property.

The remains of the late Thomas M. Green will be buried at Danville Sunday afternoon at 2 o'clock.

THOMAS M. GREEN.

Noted Editor and Author Claimed by Death. End Came Thursday Evening at Danville.

DANVILLE, Ky., April 7.—Col. Thomas Marshall Green, one of the best known residents of Central Kentucky, died at his home in this city at 6 o'clock tonight. Symptoms of diabetes developed yesterday, and his condition quickly became so alarming that the members of his family were telephoned for. This morning he was reported as steadily sinking, and little hope for his recovery was entertained.

Col Green was a son of the late Judge John Green, a noted jurist of Central Kentucky in ante-bellum days, and his mother was a Miss Marshall, a close relative of Thomas F. Marshall. He was graduated from Centre College in the famous class of 1855, being a classmate of John Young Brown, Col. W. C. P. Breckinridge and T. T. Crittenden. From his early youth he was noted for his fine intellect, but had been greatly handicapped through life by deafness.

After the Civil war Col. Green for many years edited the Frankfort Commonwealth. Later he edited a paper in Maysville, the Eagle, for many years. He also did special work for the old Cincinnati Commercial-Gazette. He wrote an article relative to an alleged political ring in Anderson County. As a result he was attacked on the streets of Lexington by State Senator Lew Baldwin, of Jessamine, and in a fierce fight Baldwin was killed.

In 1880 he came into prominence all over Kentucky by his prosecution in the Louisville courts of Judge Thomas F. Hargis. The Green-Hargis trial was one of the most noted legal battles in the history of Kentucky. Col. Green was represented by the late Judge Wadsworth, of Maysville; Col. T. W. Bullitt and others. The trial resulted in an acquittal of Hargis.

Col. Green was also the author of two works, "Historic Families of Kentucky" and "The Spanish Conspiracy."

His first wife was a Miss Butler, of Louisville. His second wife who survives was a Miss Craig, of Danville. He is the uncle of Mrs. E. W. G. Humphrey and Mrs. W. R. Brown, of Louisville. His daughter, Mrs. Clarence K. Crawford, also lives in Louisville.

The few farmers who held their tobacco crops are wearing broad smiles these days. The boom in price will add a snug sum to their bank accounts. Mr. T. L. Holton is among the fortunate ones. He sold 25,000 pounds Thursday to the Continental at 15 cents straight.

The revival services at the First M. E. Church, South, are attracting large audiences. Rev. J. R. Savage spoke Thursday night on "Individual Responsibility," presenting the truth in an earnest and very able manner. The music is an enjoyable and helpful feature of the meetings.

Mr. Hiram Taylor, the energetic representative of the Northwestern Life Insurance Company who has been forging his way to the front, has received another promotion. This time he takes charge of the Lexington district. Mr. Taylor, if he keeps up his stride, is destined to become one of the big insurance men of the country.

The marriage of Senator Byron and Miss Jennie Staton, announced to take place April 6th, was postponed until Tuesday, April 11th, as Lent does not end until Low Sunday, which is the first after Easter, and the Catholic Church prohibits marriages during the Lenten season. Whiskey and Beer Habit

PERMANENTLY CURED BY

"ORRINE,"

A SAFE, SURE AND HARMLESS SPECIFIC

Physicians pronounce drunkenness a disease of the nervous system, creating a morbid craving for a stimulant. Continued indulgence in whiskey, beer or wine eats away the stomach lining and stupefies the digestive organs, thus destroying the digestion and ruining the health. No "will power" can heal the inflamed stomach membranes.

"ORRINE" permanently removes the craving for liquor by acting directly on the affected nerves, restoring the stomach and digestive organs to normal conditions, improving the appetite and restoring the health. No sanitarium treatment necessary; "ORRINE" can be taken at your own home without publicity. Can be given secretly if desired.

CURE GUARANTEED OR MONEY REFUNDED.

Mrs. E. Wycliff, New York City, writes: "ORRINE" cured my husband, who was a steady drunkard for many years. He now has no desire for stimulants, his health is good and he is fully restored to manhood. He used only five boxes of "ORRINE."

Mrs. W. L. D. Helena, Mont., writes: "I have waited one year before writing you of the permanent cure of my son. He took sanitarium treatment, as well as other advertised cures, but they all failed until we gave him "ORRINE." He is now fully restored to health and has no desire for drink."

Mrs. A. E. L. Atlanta, Ga., writes: "I was born with a love of whiskey and drank it for thirty-two years. It finally brought me to the gutter, homeless and friendless. I was powerless to resist the craving and would steal and lie to get whiskey. Four boxes of "ORRINE" cured me of all desire and I now have the smell of liquor."

Price \$1 per box. Mailed in plain, sealed wrapper by Orrine Company, 317 14th St., Washington, D. C. Interesting book—Treatise on Drunkenness, (sealed) free on request.

The Medicine That Cures.

REMO, OKLA., May 11, 1903.

Wine of Gardui absolutely does cure sick women. I consider it the most valuable medicine, and it is the cheapest cure any sick woman can use, as it takes as a rule, only a few bottles to effect a complete and lasting cure. I especially recommend it for uterine or ovarian troubles, inflammation and ulceration, painful, profuse or scanty menstruation and it is a most valuable adjunct to use during the gestative period, insuring easy childbirth and speedy recovery.

It should have a place in every home as it is a true friend to wife, mother and maiden and I most heartily recommend it.

Dr. E. Buchanan
WRITER AND LECTURER.

Dr. Mrs. Buchanan is an authority on the science of medicine and certainly appreciates the great work physicians are doing for the relief of sufferers. But this does not deter her from expressing her views in praise of Wine of Gardui.

Mrs. Buchanan's high intelligence and long and successful experience render her advice of great value. Wine of Gardui regulates menstruation, cures bearing-down pains and relieves suffering women of the pain and misery to which their sex is heir. You have the word of Dr. Buchanan and thousands of other eminent women that Wine of Gardui will completely cure you.

All druggists sell \$1.00 bottles Wine of Gardui.

WE GIVE GLOBE STAMPS.

Carpets, Mattings and Rugs!

Have you watched our delivery wagon the last few weeks? If you have, you no doubt are wondering if we are fitting up every home in Maysville with Carpets, Rugs and Mattings. This is the largest carpet season the BEE HIVE has ever known. There is a good reason for it. Six weeks in New York by our carpet buyer. Buying in jobbers' quantities direct from the mills, selecting choice patterns and marking them at a small profit, and customers looking elsewhere are a few reasons for the majority of the carpet buyers buying here. INVESTIGATE.

LEWIS AND CLARK EXPOSITION.

The Action of Congress Makes a Reality of the Project.

Portland, Ore., April 9.—The passage of the bill appropriating almost \$500,000 for the Lewis and Clark exposition by the house of representatives at Washington makes a reality of the plans of the citizens of Oregon to have a celebration of international proportions commensurate with the events intended to commemorate. Director General H. W. Goode, in an interview, said:

"The allowance of the federal government makes the Lewis and Clark exposition international in character and makes certain the recognition and acceptance of foreign governments. Every citizen in the Pacific northwest congratulates himself on the termination of the efforts of President Harvey Scott and others for the recognition at the hands of the government. The preliminary work on the grounds is already practically completed and work on the main structures will also be at once pushed along with all possible vigor."

The Lyman H. Howe moving picture exhibition at the opera house last night was witnessed by a large audience. This was Mr. Howe's second visit here the present season, and the fact that the receipts last night were nearly twice as large as on his first appearance shows what the people think of the exhibition. His pictures are wonderfully life-like and one could hardly realize that many of the scenes were not actually taking place then and there. Mr. Howe announced that he would visit Maysville next season with a complete line of new pictures. He never repeats a scene twice in any city.

In Memory of Mrs. White.

Mrs. Anna M. White, whose maiden name was Roth, was born in Germany in 1825; died March 2nd, 1904. She came to this country in 1847; was married to Mr. Henry White Sept. 30th, 1853. To this union were born seven children. They celebrated their golden wedding last September. There had never been a death in the family up to that time. Sister White united with the Presbyterian Church in Germany. She was a good woman. Her faith was in God and she had no fear at the crossing. She was a devoted wife and a loving mother. To the husband and seven children who mourn her loss, may God's richest blessing fall upon you and that you all may so live that some sweet day you will make one family ab-ve. Germantown, April 4th. VINOL

—AND—

VINLAX

As a tonic builder of wasting diseases Cod Liver Oil has been recognized as the best and safest—but to take Cod Liver Oil in its crude state is the worst punishment inflicted upon a person. To get rid of the oil or grease has been a problem, but modern science combined with the skill and labor of a few men has enabled us to put on the market a preparation of such a pleasant taste that one would think there was no Cod Liver Oil in its composition, but it actually contains every one of fifty or more curative properties taken from genuine fresh cod livers, without one drop of oil or grease. This preparation is known as VINOL, the greatest tonic and tissue builder known to the medical profession.

When taking a tonic people often do not derive the benefit they should; nine cases out of ten this is due to constipation. Do not purge yourself by taking strong medicines, but take a mild, purely vegetable laxative in the form of VINLAX which acts as a tonic to the bowels.
